## **Future Pro Tournaments Rules**

1. You are NOT eligible to fish the Future Pro Tour if any of the following apply:

- If you have earned \$6,000 or more (in cash) individually or as part of a team in any one season two times. Please note that money won as an amateur in Pro/Am competition or specialty events is excluded.
- If you have earned two Anglers of The Year titles in organized (non-club) pro team or amateur team competition within one region. This applies even if you have fished with different partners.
- When you win your second prize boat, engine, or vehicle while fishing as a pro in any pro/am or pro team competition. Prizes won in specialty events such as River2Sea Open, Bass Pro Shops Open, Yamamoto Big Bass Challenge, etc., are excluded.
- When you win your second prize boat, engine, or vehicle fishing as an amateur in any organized circuit.
- If you have won two TOC championships in any major amateur or pro team circuit. This applies even if your championship win did not include a boat, vehicle, or engine as first prize. Note: "major" refers to organized circuits that consistently draw or average over 40 teams.

The Future Pro Tour reserves the right to determine the participation eligibility of all anglers that want to participate in Future Pro Tour events. Decisions regarding eligibility are at the sole discretion of the Future Pro Tour organization and its Tournament Competition Committee and all decisions will be final.

2. Boat and Motors: Each event will be divided into horsepower divisions. Division 1 will be boats, kayaks, or float tubes with horsepower ratings of 0 through 90. Division 2 will be boats with horsepower rating of 91 and up. In the event there are not enough teams in the Division 1, the Division 1 teams that show up have the option of competing in Division 2 for that division's prize money.

3. Start of Tournament: The order that teams are required to blast-off and check-in, will be determined by a random draw on the morning of the event. Upon registration, every angler will draw a token with a boat number on it. That number will determine each team's blast-off order and check in time. For safety reasons, Division 1 teams - including kayaks, tubes and belly boats, will blast off, and check in last.

4. Payback, Awards, Prizes: Cash paybacks, trophies, and out-of-the money prizes for all events will vary based on the size of the field. The payout ratio will be as stated in the "sample" payout matrix located at the bottom of the rules section, with a PURE at-the-ramp cash payback of 80% paid out to the field.

It is important to note that the FPT Classic Championship prize - is GUARANTEED, and, if calculated into the overall payback, would constitute a payback of well over 100%. However, we do not calculate the value of this Classic Championship prize into the at-the-ramp payback as this is the FPT's reward to its participants for being members of the Future Pro Tour.

5. Anglers of the Year: Will be determined by the team in each region, with the most points accumulated at the end of the year. To be eligible to win angler of the year, you must fish all five (5) FPT events in the northern region and all five (5) FPT events in the central region. The "Future" Future Pro Angler of the year title will be determined by the qualifying team in each region, with most points for the 5 regular season events. Anglers of the year will receive the following:

Anglers of the Year (big boat division only) will receive:

- Ram Trucks "Guts and Glory" Trophy commemorating the AOY title
- \$200 cash award

Anglers of the Year (small boat division) will receive:

• Special award commemorating their AOY achievement, and memberships paid into the following year

#### 6. FPT Classic Qualifying/Wildcards selections (applies to both divisions and both regions)

Classic Qualifiers will be determined based on the most points accumulated for 5 events. The FPT has no "throw out" points, as the total for all points earned in each event fished will determine if a team qualifies for the FPT Classic championship. You must however, fish at least 4 of the 5 scheduled events in your region to even be eligible to qualify for the FPT Classic.

Please note that there is no "Travelers Region" in the FPT, therefore you cannot combine points from events fished in different regions to qualify for the FPT Classic, or AOY title.

For events that combine regions (i.e. Camanche and Delta) points will not be separated between each region.

Wildcards - Wildcard draws will be picked after the last event of the season. Wildcards will be selected randomly by Future Pro Tour sponsors or by Tournament Competition Committee officials. Wildcards from each region will be drawn from the group of anglers sitting in the first 10 places outside of the regular qualifying bubble.

You must have fished 4 of 5 events within your region to even qualify in the wild card drawing.

#### 2019 - Classic Championship qualifications:

The scale to qualify for the FPT Classis will be as follows:

1- 25 teams - 1 team, no wild card
26-50 teams - 20 teams, 2 wild cards
51-75 teams - 25 teams, 3 wild cards
76-100 teams - 40 teams, 4 wild cards
100 and up - 50 teams (max), 5 wildcards

(Note: this scale is based on the average number of teams that participated in the total events for the region)

The FPT Classic field will be "capped" at no more than 100 teams\*

\*In the event that participation levels far exceed projections, FPT Tournament Competition Committee reserves the right to extend the field of entries at its discretion.

In case of an event cancellation due to unsafe conditions, five hours of the event will constitute a complete event. In the highly unlikely case of an act of God causing cancellation, all entry fees will automatically be transferred to the rescheduled event.

While we understand that situations within and beyond your control could arise and may preclude you from attending the event, such as sudden work commitments, sickness, boat breakdown, unproductive pre-fishing etc., please know that due to our pre-promotional expenditures, this is our <u>STATED</u> refund policy. You may, if you wish to do so, give your entry to another angler to use.

12. Confirmation: If you wish verbal confirmation of entry, it is your responsibility to contact the Future Pro Tour office for a verbal or e-mail confirmation.

13. Checkpoints: Contestants must check in and out at the official checkpoint.

14. Drive-By Inspection: Drive by inspections will be conducted when and where facilities permit. Each boat will pass by the inspection dock, in proper order, live wells open, running lights on, aerators running, life jackets on, and engine cut off switch attached to driver. Boats that do not come by the inspection station will be disqualified.

15. On Ramp Inspection: On-ramp boat inspections will be conducted by tournament officials whenever necessary. Officials will be checking for fish, safety equipment, live bait, alcohol, etc. Every boat will be issued a special colored ribbon to identify participants and verify that you live well has been check. Removal of ribbon before your weigh-in could result in disqualification.

16. Running Lights must be on at blast off and until contestants arrive at their first fishing spot. This a procedural rule that is now required by our insurance company and will cause you to be sent to the end of the line and be one of the last boats out in the event.

17. Partners Must Remain Together: throughout the fishing day and may not leave the boat unless approved by a tournament official (exception: use of rest room facilities). A contestant may not leave for the purpose of carrying, towing, or pushing his boat or to reduce weight to improve floatability for the purpose of gaining access to fishing waters that are otherwise inaccessible. If a boat is inadvertently stuck on a sand bar you may leave the boat in an effort to regain float ability back to point of entry only. Not forward past the sand bar.

18. Permitted Fishing Methods: Only artificial lures may be used. No prepared or live bait other than pork rind strips are permitted. Only one rod may be used at one time. However, any number of rigged rods may be in the boat for substitute purposes. Trolling, as a method of fishing, is prohibited. All fish must be caught live and in a conventional angling method. All fishing must be done from a boat.

19. Sight fishing for Bedding Bass: A sight or bedding fish is defined as one that can be seen and watched as it approaches the lure. Fish being caught under these conditions must be caught by hook and line and by the fish ingesting the lure. Any bass caught that is either a "sight" or "bed" fish must be caught "hook in mouth with the hook point entering from the inside of the mouth" - and must be verified as a legal catch by the angler's in-boat partner. Any "sight" or "bed" fish caught by snagging or with hook starting from outside the mouth shall be deemed an illegally caught fish and must be released. This same fish may be caught again by the legal method - with the hook starting from inside the mouth. Any angler catching a fish under these conditions and not verifying the hook location with the other person in the boat may be disqualified from the tournament.

20. Platforms in Boat: The use of any device to raise a contestant above the normal freeboard of a boat is prohibited. This rules includes any device that is constructed to raise the contestant up to a higher position as to allow them to cast into areas that would not normally be accessible or which would allow a contestant to see fish from a better angle.

22. Infringements/Permitted Fishing Areas: A "25-yard rule" is in effect at all times during competition. No contestant's boat may move within 25 yards of another contestant's boat at any time for the purpose of fishing. A boat moving from one area to another may infringe upon this distance as long as the transient fisherman do not attempt to fish while moving. Exceptions to the 25-yard rule apply only to docks, break walls, and slough channels.

Exception example 1: If you wish to fish a boat dock next to a boat dock another team is fishing, and it falls inside the 25-yard parameter, you are allowed to fish it. In all cases please be courteous.

Exception example 2: If you wish to fish in a slough channel that is longer than 25 yards, and there is another team fishing inside of it, you must continue pass them 25 YARDS before you can start fishing. If you wish to fish the opposite side of the slough channel, you may do so. In all cases please be courteous.

Please note that encroachment and infringements will not be tolerated and that protests can lead to penalties and a disqualification for the offending teams.

23. Boat Control: Contestants must leave and return to the tournament weigh-in site by boat. Boats cannot be trailered from one fishing location to another during tournament hours. This rule includes non-contestant boats as well as contestant boats, except emergency situations.

24. Fish Size/Culling: Fish will be measured flat, mouth open on a Wil-E-Go belly board or a Bass-Board on the belly (dish) side, with a 13-inch minimum size. No measuring or culling inside of 5 mph buoys or the area between the check-in point and the weigh-in site will be permitted. Infractions will result in disqualification. It is YOUR responsibility to declare to the weigh master that you want to weigh a big fish - even if you only have caught one fish, BEFORE they are weighed and recorded. You will not be asked if you want to weigh a big fish by the weigh master. Once your bag of fish is handed to the weigh master, you will not be allowed to weigh your big fish.

25. Number of fish in Limit: No fisherman may hold in the live well more fish than the limit imposed by the event fished. For all normal points race team tournaments the limit is 5 fish per team / or 5 fish per team during each half of a split weigh-in event. Failure to comply will result in disqualification.

26. Breakdowns/Emergencies: Anglers are not permitted to leave their boats nor touch another boat, with the exception of an emergency or major equipment failure. In this case, it is permitted to be towed either to safety or back to the weigh-in area by any safe means available. You may not transport fish by land. You may only have your fished transported to the weigh-in by another tournament boat participating in the same event. At least one person must stay with your fish at all times and neither angler is permitted to fish while under the assistance of another boat during the breakdown period. IMPORTANT - PLEASE TAKE NOTE: We regret that FPT officials cannot be responsible for ensuring that you make it back to the weigh-in site in the case of an emergency or breakdown. If you call and reach FPT officials during an emergency or breakdown, we will do our best to dispatch emergency services to assist you, but cannot guarantee that someone will be sent out to assist you. It is your sole responsibility to take the necessary precautions (i.e. cell phones/911 numbers/emergency equipment) with you BEFORE you participate in FPT events to call any necessary public or private emergency services personnel.

27. Penalties: Teams who have not checked in at the official check in point on time - as noted by the official check in boat - will be deducted 1 pound for each minute late, up to 5 minutes. After which the team (s) will be disqualified. Teams that are late will be notified of this after all contestants have weighed in and scoring has been completed. All decisions on this matter by the tournament director are final. Boat and motor problems are no excuse for tardiness! Anyone weighing in fish smaller than 13-inch minimum length will lose that fish and have one pound subtracted from the remaining total weight. Any fish that appears to have been altered or mutilated, in the Tournament Director's judgment, will be deemed illegal, and one pound will be subtracted from the total weight for each such fish. The penalty in any Future Pro Tour event for dead fish will be progressive- (1 dead fish-.20, 2 dead fish-.40, 3 dead fish -.80, 4 dead fish-1.60, 5 or more-3.00 lbs.). To this end, the following rules will apply to anglers using guide services:

Anglers may use guide services only up to the Friday one week prior to a tournament event. This allows you and your team partner to learn and apply the principles – YOURSELF on the water the entire week leading up to the event.

No licensed black bass guides (largemouth, smallmouth, spotted) will be allowed to fish the Future Pro Tour as a contestant.

Broken live-wells, dying fish, or any other calamity, does not preclude you from following Dock Patrol instructions.

Please note: The above payback matrix is based on 100 paid entries and will be adjusted up or down accordingly.

Because we have moved away from the traditional "winner take all" TOC championship event, and so that there is money/prizes to be paid back for 2nd - 10th places, a \$120 per team entry fee will be required.

It is important to note that this fee IS NOT collected to pay for the FPT Classic Championship 1st place award as it is GAURENTEED - regardless of the number of anglers that participate in this championship event, and is the FPT's reward to our anglers for their year-long participation and support of FPT events.

The entry fee charged will be paid back to the field of participants in the form of cash and prizes to the top 10 finishers and provides anyone finishing in the top ten with winnings of more than 3 times the cost of their entry. A small portion of the entry fee will be held back to help off-set Classic Championship staffing expenses.

The FPT Classic for the 2019 season, will be held in early March, of 2020, at a lake to be determined.

This Classic championship event will be held in a 3-day "FLW style" elimination format where the entire field of qualifiers will compete on day one and day two, where on the final day, the field will be cut to the top 15 finalists.

Below is a sample of the FPT's **at-the-ramp PURE 80% payout** matrix for all regular season FPT events, which is designed to eliminate any confusion regarding how much you should expect to receive if you finish high enough to get a check.
